

## P2520-RT

### Scope of multi-method pesticides

|                      |                         |                          |
|----------------------|-------------------------|--------------------------|
| Acetamiprid          | Cyprodinil              | Fenthion-oxon            |
| Acrinathrin          | DDE-p,p                 | Fenthion-oxon-sulfone    |
| Aldrin               | DEET                    | Fenthion-oxon-sulfoxide  |
| Aminopyralid         | Deltamethrin            | Fenthion-sulfone         |
| Azinphos-ethyl       | Demeton-S-methylsulfone | Fenthion-sulfoxide       |
| Azoxystrobin         | Diallate                | Fenvalerate              |
| Bifenazate           | Diazinon                | Fipronil                 |
| Bifenthrin           | Dicamba                 | Fipronil-sulfone         |
| Bixafen              | Dichlofluanid           | Flubendiamide            |
| Boscalid             | Dichlorvos              | Fludioxonil              |
| Bromocyclen          | Dicloran                | Flufenacet               |
| Bromophos-ethyl      | Dieldrin                | Flumethrin               |
| Bromopropylate       | Diflubenzuron           | Fluopicolide             |
| Buprofezin           | Dimethoate              | Fluoxastrobin            |
| Carbendazim          | Dimoxystrobin           | Fluquinconazole          |
| Carbofuran           | Diphenylamine           | Flusilazole              |
| Carbofuran-3-Hydroxy | Disulfoton              | Flutolanil               |
| Chinomethionat       | Disulfoton-sulfone      | Flutriafol               |
| Chlorantraniliprole  | Disulfoton-sulfoxide    | Fluvalinate-tau          |
| Chlorbenside         | Endosulfan sulfate      | HCH-alpha                |
| Chlordane-trans      | Endosulfan-alpha        | HCH-beta                 |
| Chlorfenapyr         | Endosulfan-beta         | HCH-delta                |
| Chlorfenvinphos-Z    | Endrin                  | HCH-gamma                |
| Chlorobenzilate      | Epoconazole             | Heptachlor               |
| Chlorpropham         | Esfenvalerate           | Heptachlor epoxide-cis   |
| Chlorpyrifos-ethyl   | Etofenprox              | Heptachlor epoxide-trans |
| Chlorpyrifos-methyl  | Etridiazole             | Hexachlorobenzene        |
| Clopyralid           | Famoxadone              | Imazalil                 |
| Coumaphos            | Fenazaquin              | Iprodione                |
| Cyfluthrin-beta      | Fenhexamid              | Isopyrazam               |
| Cyhalothrin-lambda   | Fenoxycarb              | Ivermectin               |
| Cymiazole            | Fenpropathrin           | Kresoxim-methyl          |
| Cypermethrin-zeta    | Fenpropimorph           | Malathion                |
| Cyproconazole        | Fenthion                | MCPA                     |

|                   |                         |                  |
|-------------------|-------------------------|------------------|
| Metalaxyl         | Pentachloroaniline      | Quintozene       |
| Metazachlor       | Permethrin-cis          | Resmethrin-trans |
| Methidathion      | Permethrin-trans        | Spinosyn A       |
| Methoxychlor-o,p  | Perthane                | Spinosyn D       |
| Musk ketone       | Phenothrin-trans        | Spirodiclofen    |
| Musk MC4          | Phorate                 | Spiroxamine      |
| Nicotine          | Phosalone               | Tebuconazole     |
| Nitenpyram        | Phosmet                 | Tecnazene        |
| Nitrofen          | Phoxim                  | Tefluthrin       |
| Nonachlor-cis     | Picaridin               | Tepraloxydim     |
| Nonachlor-trans   | Piperonyl-butoxide      | Tetraconazole    |
| Novaluron         | Pirimicarb              | Tetradifon       |
| Omethoate         | Pirimiphos-methyl       | Thiabendazole    |
| Oxydemeton-methyl | Procymidone             | Thiacloprid      |
| Paraoxon-methyl   | Profenofos              | Thiamethoxam     |
| Parathion         | Propargite              | Tolyfluanid      |
| Parathion-methyl  | Propiconazole           | Topramezone      |
| PCB 101           | Propyzamide             | Triadimenol      |
| PCB 138           | Prothioconazole-desthio | Triazophos       |
| PCB 153           | Pyraclostrobin          | Trifloxystrobin  |
| PCB 180           | Pyrazophos              | Trifluralin      |
| PCB 28            | Pyridaphention          | Vinclozolin      |
| PCB 52            | Pyrimethanil            |                  |
| Pendimethalin     | Quinmerac               |                  |
